

Leading Infrastructure Utility Group

TAMAS

1978

FIRST ESTABLISHED

**An infrastructure group
specializing in the
construction, operation, and
maintenance of public utilities
and transport systems.**

PRESIDENT'S MESSAGE

I am extremely proud of what TAMAS Group of Companies have achieved of development and growth since inception in 1978 and ever more excited about our future, which is poised to be equally promising.

This dynamic development of the Group has facilitated aggressive forward momentum in many areas, capitalizing on solid growth opportunities, improving operational efficiency and sharpening our business portfolio's focus on Infrastructure Utilities related to Water, Wastewater, Power and Transport Systems activities related to Traffic Management Systems, Airfield Control and Security Systems.

Throughout the years, we have always strived to strike the right balance and blend of local knowledge with international expertise in all of our business activities in our pursuit of total quality to the entire satisfaction of our Clients through TAMAS Group of Companies.

I look forward to maintaining this significantly positive contribution to all our clients through the companies of TAMAS Group and their lines of business services.

WATER & WASTE WATER NETWORKS

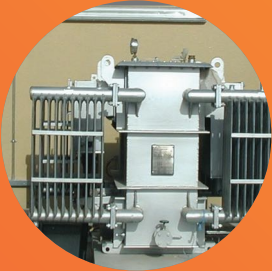

TAMAS provides comprehensive services including Engineering, Procurement, Construction, Testing and Commissioning of Water, Wastewater and Storm Water Pipeline Networks with all associated equipment including related Civil, Mechanical, Electrical, Instrumentation and SCADA systems.

TAMAS's ongoing involvement with pipeline construction allows us to deliver the most suitable techniques for deep excavation, dewatering and pipe laying. Furthermore, TAMAS's employees are well experienced with ductile cast iron, GRP, UPVC, pipelines and associated structures.

Our Services

- Potable Water & Sewerage Networks
- Storm-water, Drainage & Fire-fighting Networks
- Water, Sewage & Irrigation Pumping Stations
- Water & Sewage Treatment Plants
- Industrial Waste Treatment Plants

POWER

Transmission & Distribution

TAMAS provides turn-key power transmission and distribution projects; Accordingly, TAMAS retains the required expertise and further develops knowledge to enhance its capabilities to deliver high quality installations.

Our Services

- Power Transformers
- LV & MV Switchgear
- Motor Control Centers
- Street & Area Lighting
- Diesel Generation Power Plants
- Primary & Secondary Cable Reticulation
- Power Transmission & Distribution Networks
- SCADA, Telemetry and Control Systems

TRAFFIC MANAGEMENT SYSTEMS

In recent years, TAMAS has partnered with a number of globally recognized companies and developed its capabilities to deliver turnkey solutions for road safety and Intelligent Traffic Management Systems (ITS) across the region.

TAMAS' Traffic Management team offers engineering designs, system integration, installation, project management as well as operation and maintenance for many applications.

Our Services

- Local & Central Traffic Control Systems
- Collision warning and CCTV monitoring
- Video surveillance, Radar detection
- Variable Message Signs (VMS)
- Parking Management Systems
- Public Transport Management
- Integrated SCADA Systems
- LED Traffic & Street Lighting

AIRFIELD SYSTEMS

TAMAS has enjoyed sustained growth since being involved in airport works in early 1994. This road to success has been built with the expertise of its employees and associates' support.

TAMAS' airport experience has matured to include various systems in major international airports in the region such as Abu Dhabi, Dubai & Doha international airports.

TAMAS' team continues to offer technical and project management skills necessary to design, install, operate and maintain airport electrical, electronic and mechanical systems.

Our Services

- Airfield Lighting & Control Systems
- Water, Drainage & Sewage network
- Meteorological & Navigation Aids
- Area & Flood Lighting Masts
- CCTV and Security Systems
- Aircraft Fueling Systems
- Cargo Handling Systems
- Electric Substations
- Radar Stations

QHSE POLICY

TAMAS is committed to the safety and welfare of every individual working within the organization.

TAMAS' management is fully committed to the maintenance of safe working environment in every work place by providing the necessary resources in terms of equipment, personnel training and policy guidelines.

TAMAS has integrated a Quality Management System in accordance with requirements of ISO 9001:2015 in all aspects of Engineering, Procurement, Construction, Operations, and Maintenance activities at all levels of the organization.
